AGS

2004 PRODUCTION AWARDS

Compiled by Gail Patcher-DHI Coordinator
10 Hilltop Drive
Stockton, NJ 08559
(609)773-0060
gaymornd@comcast.net

The records included in this booklet consist of all those lactations of 305 days or less *completed in 2004* and the records of all does participating in one-day tests during 2004.

This was another good year for DHIR testing. There were twenty-six herds on test in fourteen different states.

There were four herds testing standard sized does. The rest were all Nigerians.

There were 172 lactations completed in 2004. Some does completed more than one lactation. There were 101 qualifying records.

There were thirty-five applications for one-day tests made in 2004, of which twenty-eight tests were completed. There were four group tests and twenty-four single herd tests done. There were 157 does tested, representing twenty-five owners. Ninety does made qualifying records.

Twenty bucks qualified in 2004 for their plus sire titles, and five bucks qualified for their second plus. Six does qualified for their stars through their progeny.

There are eighteen herds signed up for DHIR testing in 2005, and hopefully more owners will apply later on. We've had one one-day test already.

It's easy, inexpensive, especially now that AGS offers the Owner-Sampler program, and lots of fun to milk test your animals. Why not make this year the year you try it for the first time?

HOW TO READ MILK RECORDS

DHIR Records

For instance: 2.10-21 1/8-305-1115-79(7.1%)46(4.1%)

This means that the doe started her lactation at the age of two years and ten months. At some time during this lactation she was officially measured at 21 1/8" (only miniature breeds are measured). In 305 days she milked 1115 lbs. of milk, 79 lbs. of butterfat averaging 7.1% and 46 lbs. of protein averaging 4.1%.

One-Day Test Records

For instance: 3.06-21 5/8-22-6.0-5.1-68.49

This means that the doe was three years and six months old on the day she was tested. She was officially measured at 21 5/8" tall. She gave 6.0 lbs. of milk at 5.1% butterfat, and her total score was 68.49.

*Top Ten booklets for each year from 1988 on
are available at only \$5.00 each. Contact Gail
Patcher to order.*

Please note that prior to 1993 no record was kept of either DHIR records or one-day test records that did not qualify.

Also, the standard doe records used in the All-Time Awards include only those does making records from 1963 on. Unfortunately, all records prior to this year have been lost.

There will soon be Top Ten booklets for standard does going back to 1963. Some years will be combined. They will be available for only \$5.00 per booklet. If you'd like to have an Excel file containing all standard does' records, please contact Gail Patcher.
