AGS

2005 PRODUCTION AWARDS

Compiled by Gail Patcher-DHI Coordinator

*10 Hilltop Drive
Stockton, NJ 08559
(609)773-0060
gaymornd@comcast.net*

The records included in this booklet consist of all those lactations of 305 days or less *completed in 2005* and the records of all does participating in one-day tests during 2005.

This was another good year for DHIR testing. There were twenty-six herds on test in fifteen different states. There were three herds testing standard sized does. The rest were all Nigerians. There were 163 lactations completed in 2005. Some does completed more than one lactation. There were 75 qualifying records.

The quality of Nigerians keeps improving. When testing first began it was unusual to see a record of 1,000 lbs. Now, it takes that just to make the Top Ten!

There were twenty-three applications for one-day tests made in 2005, and nineteen tests were completed. There were two group tests and twenty-one single herd tests done. There were 116 does tested, representing thirty-six owners. Sixty-five does made qualifying records.

Four bucks qualified in 2005 for their plus sire titles. One doe qualified for her star through her progeny.

There are nineteen herds signed up so far for DHIR testing in 2006, and hopefully more owners will apply later on.

It's easy, inexpensive, especially now that AGS offers the Owner-Sampler program, and lots of fun to milk test your animals. Why not make this year the year you try it for the first time?

HOW TO READ MILK RECORDS

DHIR Records

For instance: 2.10-21 1/8-305-1115-79(7.1%)46(4.1%)

This means that the doe started her lactation at the age of two years and ten months. At some time during this lactation she was officially measured at 21 1/8" (only miniature breeds are measured). In 305 days she milked 1115 lbs. of milk, 79 lbs. of butterfat averaging 7.1% and 46 lbs. of protein averaging 4.1%.

One-Day Test Records

For instance: 3.06-21 5/8-22-6.0-5.1-68.49

This means that the doe was three years and six months old on the day she was tested. She was officially measured at 21 5/8" tall. She gave 6.0 lbs. of milk at 5.1% butterfat, and her total score was 68.49.

*Top Ten booklets for each year from 1988 on
are available at only \$5.00 each. Contact Gail
Patcher to order.*

No Pygmies participating in one-day tests qualified

Please note that prior to 1993 no record was kept of either DHIR records or one-day test records that did not qualify.

Also, the standard doe records used in the All-Time Awards include only those does making records from 1963 on. Unfortunately, all records prior to this year have been lost.

There will soon be Top Ten booklets for standard does going back to 1963. Some years will be combined. They will be available for only \$5.00 per booklet. If you'd like to have an Excel file containing either Nigerians or standard does' records, please contact Gail Patcher.
