AGS 2016 PRODUCTION AWARDS

Compiled by Gail Pletcher-DHI Coordinator

10 Hilltop Drive

Stockton, NJ 08559

(609)773-0060

gaymornd@comcast.net

Proof-read by Pam Haring

The records included in this booklet consist of all those lactations of 305 days or less *completed in 2016* and the records of all does participating in one-day tests during 2016. ***Only qualifying does are listed in the Top Ten categories.***

There were 32 Nigerian Dwarf herds enrolled in 15 different states. There were no herds testing standard sized does. There were 256 lactations completed in 2016. Some does completed more than one lactation. There were 165 qualifying records. Quite a few herdowners didn't bother sending in their doe pages.

There were 7 owner/sampler herds. We still have not received permission from the board of directors to present separate owner/sampler Top Ten results.

There were 40 applications for one-day tests from 11 states made in 2016, and 36 tests were completed. 1 group test and 35 single herd tests were completed. There were 291 records, representing 20 owners. 172 does made qualifying records, and 119 did not qualify.

11 Nigerian bucks qualified for their plus sire titles and 1 qualified for his two plus title. No Nigerian doe qualified for a star by progeny. There are 25 herds signed up so far for DHIR testing in 2017, including 5 owner sampler herds, with 419 does enrolled.

It's easy, inexpensive, especially now that AGS offers the Owner-Sampler program, and lots of fun to milk test your animals. Why not make this year the year you try it for the first time?

HOW TO READ MILK RECORDS

AR Records

For instance: 2.10-21 1/8-305-1115-79(7.1%)46(4.1%)

This means that the doe started her lactation at the age of two years and ten months. At some time during this lactation she was officially measured at 21 1/8" (only miniature breeds are measured). In 305 days she milked 1115 lbs. of milk, 79 lbs. of butterfat averaging 7.1% and 46 lbs. of protein averaging 4.1%.

One-Day Test Records

For instance: 3.06-21 5/8-22-6.0-5.1-3.6-68.49

This means that the doe was three years and six months old on the day she was tested. She was officially measured at 21 5/8" tall. She gave 6.0 lbs. of milk at 5.1% butterfat and 3.6% protein, and her total score was 68.49.

***Top Ten booklets for each year from 1988 on are available at only
\$5.00 each. Contact the AGS office to order
Contact Gail Pletcher for free spreadsheets containing all records***

Lincoln Awards

Mrs. J.C. Lincoln was a past president of AGS and was both a strong supporter of the organization and promoter of dairy goats in general. She raised a herd of prize winning Nubians under the herd name of Desert Nubians. Mrs. Lincoln raised Nubians for 20 years and donated her herd of 17 goats to Arizona State University in 1967. She was a strong believer in goat milk and drank it daily most of her life. She was a philanthropist, whose generous donations to John C. Lincoln Hospital & Health Center, Phoenix Boys Choir, Heard Museum, YMCA Say Y Camp and AGS have been put to many good uses. Mrs. Lincoln had a simple philosophy about philanthropy. She said, "If you have more money than you need for bread and beans, give it to somebody else. I just did what had to be done." Mrs. Lincoln died on November 12, 1994, at the age of 103. We are honored to have had such a selfless, caring individual involved with AGS.

She donated money to AGS to use for production awards. Some of the interest from this money is used for an annual award program to recognize the three does of each breed with the highest amount of milk in 305 days or less during the year.

These awards are presented annually at the Board of Directors meeting or summer event. 1st place is \$30.00, 2nd place is \$20.00 and 3rd place is \$15.00.

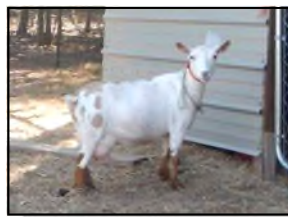

Does must be AGS registered and must have been on DHIR test with AGS. Does must have had a verification test during the qualifying lactation. Miniature breeds must be within the height standards.

Only does who met the minimum standard for milk weight are considered for these awards.

Because the current test results must be approved by the awards committee before being published, we can only include last year's results in this booklet.

Pygmies

Pygmy All-Time DHIR Breed Leaders (*Qualifying Does Only*)

No protein percentages were reported during this time period

All-Time Pygmy Breed Leaders

	Name of Doe	Owner	Age	DIM	Milk	BF	BF%	Year
1	Country Kid China Doll *D	Kinne	2.00	305	843	50	5.9%	1985
2	Jennifer of Valhalla *D	Kinne	3.05	305	645	41	6.4%	1985
3	Tochay's Meriadoc *D	Sisco	1.09	175	572	26	4.5%	1982
4	Buttin'Heads Hope's Springs Eternal *D	Rucker	2.11	260	530	37	7.0%	1996

No Pygmies participating in one-day tests qualified

Please note that prior to 1993 no record was kept of either DHIR records or one-day test records that did not qualify. Also, the standard doe records used in the All-Time Awards include only those does making records from 1963 on. Unfortunately, all records prior to this year have been lost.
